

IDS2935: Language and Emotion

I. Course Information

Quest 1 Theme: Identities

Fall 2024

Meeting Day/Time: asynchronous, online

Location: Canvas course site, <https://elearning.ufl.edu>  (<https://elearning.ufl.edu>)

Primary General Education Designation:

Humanities (H)

Humanities courses provide instruction in the history, key themes, principles, terminology, and theory or methodologies used within a humanities discipline or the humanities in general. Students will learn to identify and to analyze the key elements, biases and influences that shape thought. These courses emphasize clear and effective analysis and approach issues and problems from multiple perspectives.

Secondary General Education Designation:

Diversity (D)

This designation is always in conjunction with another program area. Courses with Diversity should demonstrate that a majority of the course addresses Diversity content and engagement and it should be a substantial, defining feature of the course.

In Diversity courses, students examine the historical processes and contemporary experiences characterizing social and cultural differences within the United States. Students engage with diversity as a dynamic concept related to human differences and their intersections, such as (but not limited to) race, gender identity, class, ethnicity, religion, age, sexual orientation, and (dis)abilities. Students critically analyze and evaluate how social inequities are constructed and affect the opportunities and constraints across the US population. Students analyze and reflect on the ways in which cultures and beliefs mediate their own and other people's understandings of themselves and an increasingly diverse U.S. society.

Writing Designation: Writing Designation (WR) 2000 words

A minimum grade of C is required for general education credit. Courses intended to satisfy the general education requirement cannot be taken S-U.

Course Description

Reference to emotion is ubiquitous in American society. The experience of emotion is part of human social interaction and generating it is part of the appeal of written and visual media. Despite its being so central to human experience, philosophers, psychologists and scientists still debate how to define emotion. The course begins at the beginning, with a definition of emotion from the perspective of neuroscience, and then turns to examination of the expression and processing of emotion by means of the languages of emotion, which include facial expression, bodily expression, and the human voice. We then study the ways in which different languages conceptualize emotion. We also learn about the ways in which those who are not neurotypical may differ in the expression and processing of emotion through language. Finally, we examine the ways in which emotional expression in self-presentation or in interaction with others can pose challenges in particular environments. We will investigate the ways in which certain stereotypes, such as gendered experience of and expression of emotion, can affect the reception of the self and professional agendas in the public domain.

The course is interdisciplinary in nature: readings targeting the language of emotion are drawn from cognitive neuroscience, experimental linguistics, general linguistics, sociolinguistics, psychology, sociology, and literary studies, among others. The objectives of the course are to enhance our ability to recognize and respond to emotion across different settings and interlocutors, and to consider how others may react to the emotional identity we construct for ourselves.

The Writing Requirement (WR) ensures students both maintain their fluency in writing and use writing as a tool to facilitate learning. Grades for courses that count towards the writing requirement have two components. To receive Writing Requirement credit, a student must receive a grade of C or higher for the course, and must satisfactorily complete the assignments in the writing component of the course.

1. This course carries **2,000** words in that count towards the UF Writing Requirement.

IV. Quest Learning Experiences

1. Details of Experiential Learning Component

Quest 1 requires an out-of-classroom learning experience that offers students a different take on ideas discussed in class. Our experiential learning assignment involves the selection of an art object, and an explication of any emotion(s) evoked in viewing it. We have studied emotion expression in physical, facial, and bodily forms. We have also investigated the encoding of emotion in words, the discussion of emotion in talk, and the evocation of emotion in music, literature and film. Here, we investigate emotion expression in another medium (ceramics, photography, painting) through the mechanisms that evoke it (space, line, color, texture, movement).

To select your object, visit the Harn Museum in Gainesville (or other museum if not in Gainesville). Select the object you would like to work on. If you are unable to visit the Harn, you are welcome to select from your local art museum or space where art is displayed.

Write an essay of 800-1200 words on the object that you have selected that responds to the following questions:

1. What emotion(s) do you feel when viewing this work? What aspects of the object make you feel this way?
2. What aspects of the artist's work evoke this emotion for you? Refer to colors, shapes, line, composition, space, light, and texture as
3. You may also wish to briefly research the artist, and incorporate any perspectives that are relevant in interpreting the
4. Include the title of the work, the artist, and the date of the work in your

⇒ [. \(https://owl.purdue.edu/owl/research_and_citation/using_research/citation_style_chart.html\)](https://owl.purdue.edu/owl/research_and_citation/using_research/citation_style_chart.html).

The main elements of your essay, however, should be as follows:

1. Title of your essay
2. Description of the object (object type, medium, artist, date, country)
- Overview of the emotion(s) the object evokes in you, the viewer.
 1. Support for your interpretation of emotion(s) evoked in the form of analysis of components of the artwork as outlined in the guidelines on “How to view an art object.”
 2. Additional perspectives from secondary sources. These can be incorporated into the analysis, as appropriate.
 3. Conclusion

2. Details of Self-Reflection Component

Quest requires some formal reflection where students reckon with what they think, why they think it, and what the implications of their thoughts are. This objective is accomplished in this course in direct fashion with Data posts and reflection posts (5 of each, out of a total of 12 possible posts) that ask students to find an example of the target under focus, such as a vocal burst indicating some emotion, or an example of expression of anger in a work context, and to analyze it in context and reflect on any implications for identity display.

This objective is also accomplished in the Data Analysis Essay, and in the Experiential Learning Essay, in which students must select their own text and object for analysis, provide their own interpretation of any emotions expressed and /or evoked, along with supporting evidence for their analysis.

V. Student Learning Outcomes (SLOs)
