COURSE DESCRIPTION: This course is an introduction to pragmatics, or the study of non-truth-conditional aspects of utterance meanings that are determined by *situated uses* of language and linguistic communication as a social activity. In this connection, we will explore the role of discourse and extra-linguistic context in the production and interpretation of utterances. An important part of the course is to provide students with a solid understanding of the development of theories of language use in linguistics and philosophy of language. Particular attention will be paid to the relationship between pragmatics and semantics (the study of the truth-conditional meaning of sentences). The course also touches on some issues in the relations between pragmatics and syntax. Topics to be covered include sense and reference, presupposition, implicature, and speech acts.

PREREQUISITES: LIN 3010, or graduate standing, or permission of instructor.

TEXTS

- **REQUIRED:**

- Birner, Betty J. 2013. *Introduction to Pragmatics*, Malden, MA: Wiley-Blackwell. (Available at the Reitz Union bookstore, Tel. 392-0194 and at Gator Textbooks, 3501 SW 2nd Ave. Tel. 374-4500)
- Articles posted on E-Learning by the instructor and available at the library – see the list of readings below.

- **RECOMMENDED:**

- Huang, Yan. 2014. *Pragmatics*. Second Edition. Oxford: Oxford University Press. (Available at Smathers Library.)

REQUIREMENTS AND GRADING

- **Reaction papers:** 12 x 2% = 24%

A ‘reaction paper’ on each reading assignment is due on Wednesday of its respective week; **I will not grade late papers without a documented excuse**. Please let me know ahead of time if there are extenuating circumstances that will force you to return in late work.

The point of a reaction paper is to *react*, i.e. evaluate, criticize, support, or merely raise questions about the assigned readings.

Reaction papers are to be at least one full page in length (but not more than two); typed (font size 12; double space). They will not be assigned a letter grade, but only a pass/fail check.

For each RP assignment, I will create an “assignment” on Canvas, where the RP should be submitted.

- **Homework:** 5 x 2% = 10%

The Homework assignments are related to the reading chapters.

At their choice, undergraduate students are to write a reply on ONE of the questions suggested by Birner at the end of each respective chapter, and the graduates should answer TWO.

The replies are to be at least one full page in length (but not more than two) for each question (i.e., grads are supposed to submit at least two and not more than four pages); typed (font size 12; double space). They will not be assigned a letter grade, but only a pass/fail check. In order to pass, each assignment must be completed and its lowest grade should be a D, i.e. at least 63% of the assignment should be good.

For each HW exercise I will create an “assignment” on Canvas, where the HW should be submitted.

- We will typically discuss the homework in class, so late homework cannot be accepted.
- You may discuss the problems with other members of this class section only. You must write up your solutions entirely on your own, without help, in accordance with the Honor Code:
<http://www.chem.ufl.edu/~itl/honor.html>

- **Exams:** 2 x 23% = 46%

The exams are not cumulative except to the extent that the material builds on itself, and you cannot control the more complex concepts without first getting the more basic ones. There is no final exam.

There will be no make-up exams without a documented medical excuse.

- **Term Paper:** 20%

A term paper is an essay-style paper, to be presented in class on Monday, Wednesday or Friday of weeks 11-14. Please sign up for presentation during the week after the first test.

- The written paper is to be 10-15 pages in length; typed (font size 12; double space).
All papers are due by Monday, April 24. I will create an “assignment” on Canvas, where you can upload your paper.
- The oral presentation is to be planned for 10-15 minutes talk + up to five minutes’ questions or comments.

- **Class participation:**

Since the format of this class is lecture, class work and discussion, your attendance and active participation in class are essential for success in this course. For this reason, absences put you at a severe disadvantage. Each student will be allowed three absences without penalty. After that, one point will be deducted from the final grade for every non-excused absence. Showing up later or leaving earlier is considered 1/2 absence.

NOTE: There will be no extra credit work to help raise your grade; please do not ask. The best strategy is to do the best work you are capable of on the assigned work (exams, h/w assignments, reaction papers and term paper). **Missed course work would lower your grade, according to what was missed.**

On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” [The Honor Code](#) specifies a number of behaviors that are in violation of this code and the possible sanctions.
