OBJECTIVES

This course provides a general linguistic overview of Vietnamese, introduces and analyzes its key issues in phonetics, phonology, morphology, syntax and pragmatics. We will study the history of the language, the writing systems, and inconsistencies between sounds and characters. We will examine the sound system, what creates the 'Vietnamese accent', the development of tones, how the native speakers adopt loanwords, how properties of Vietnamese syllables allow the speakers to play word game and reduplicate words to reduce or intensify meanings, how words are combined, the basic word order and structure of phrases and clauses, how concepts of time and completion are expressed, how to use the proper term to address someone, how politeness is expressed through particles, how social changes in gender roles reflected in the language, and dialectal stigmatization.

Background in either Vietnamese or linguistics might be helpful but **not** required. The course is introductory to the Vietnamese language. More technical readings will be provided to students who are interested in having a deeper linguistic understanding of the language.

Prerequisites: completion of LIN 3010 "Introduction to linguistics", or VTN 1130, VTN 1131, or with the instructor's permission.

COURSE MATERIALS

There is no textbook for this class. In addition to weekly Hand-outs, relevant articles and book chapters included in the References below will be selected for weekly readings, and **posted on Canvas in e-learning**.

EVALUATION

Class attendance and participation: 15%	60 points
Exam 1 (in class): 20%	80 pts
Exam 2 (in class): 20%	80 pts
Exam 3 (take home) or project presentation: 20%	80 pts
Homework: 25% (6, drop the lowest)	100 pts
Bonus points for annotated bibliography: up to 10%	(40 pts)

1. Class participation: participate in class discussions on the exercises or readings. Read careful the assigned readings prior to every class, prepare to discuss what the paper is about, what you think interesting, or not, what is not clear to you, what you agree or

disagree with, or further any point from the reading with your own knowledge or sources. To earn **an A grade** you are expected to be active in every class, such as discussing the readings, offering your opinions, answering questions, or raising questions to help understand better the materials/topics. **A B grade** requires similar but at a lesser degree. **A C grade** is expected if there is no participation in class discussions. Unexcused absences, therefore, would reduce your participation grade.

2. Exam 1: in class on February 12; Exam 2: in class on Mar 26 Exam 3: take home, due Apr 21

For Exam 3 you can either choose to write a critical review of a paper assigned, or do a project and present it in class. If you choose the project: select a topic from the list of Topics for Project, which will be posted in e-learning around Week 3 or 4. For the project you can either work on your own or pair up with a classmate. Present your Project in class and submit a written copy of your presentation following the date of presentation.

Make-up exam: allowed only when written documents are provided (illness or family emergency). Please send prior notification to me: apham@ufl.edu.

- 3. **Homework**: Submit to the instructor on the due date. Homework helps you to understand the materials and prepare for the Exams.
- 4. **Optional annotated bibliography** This opportunity to earn bonus points means to help offset any negative effect that unforeseen circumstances may have on your graded work during the term, and to help build the references for the course. Search for an article or a book on Vietnamese that is not included in the references below, and not to my awareness. Read the article and write a summary (what it is about, the main topic, arguments and or findings, etc). If it is a book, provide a brief summary of the book. If the article/book is not written in English, French or Vietnamese, an English summary is needed. Get the instructor's approval first on the article you intend to summarize. You may earn up to 10% (40 bonus points) for the annotated bibliography, based on its clarity, precision and completeness. Critical review is a plus but not required.

Please check the course on Canvas and your UF email account regularly for messages, course materials or assignments.

WEEKLY SCHEDULE

Readings in the weekly schedule, besides Hand-outs, might include parts in relevant articles and books written in English on the topics, either required or recommended. For certain topic (tone in poetry and music), the reading is available only in Vietnamese (week 4, in italics) but the lecture notes will help others. The articles or books in Vietnamese included in the References are meant for those who could read the language. Some source is used only for the data.
