Course Description

In this course, we will explore the following important questions:

Imagine! You are in Seoul or Malaga and your supervisor tells you that you have to teach the difference between the -of genitive and the -s genitive... What does that even mean? What do you do?

This course will enable you to respond to a situation like this as an informed, albeit still learning, speaker and teacher of English.

Course Objectives

By the end of the course, you will be able to:

- Explain orally and visually the form, meaning, and use of various grammatical constructions in English
- Create activities for ESL/EFL learners that meet your instructional objectives
- Feel better than okay about teaching grammar

Course Learning Activities

We will engage in the following activities to help us reach these objectives:

1) Grammar Practice (50 points total)

You'll do five grammar practice exercises that 1) will help you apply your understanding of grammar, and 2) will enable you to do activities that an ESL student might do. This will give you practice learning about and identifying the grammar challenges of students with whom you might work. More information can be found on Canvas.

2) Tutoring Grammar Assignment (70 points total)

What better way to learn about grammar (content knowledge) and learn about teaching grammar (pedagogical content knowledge) than to work with a tutee. This multi-part assignment takes you through assessing student grammar, preparing instructional content, tutoring your tutee, and reflective

on the experience while it is going on and after it is done. Specific details and instructions can be found on Canvas.

- **Diagnostic**—graded per rubric (15 points)
- **Tutor**—graded as Completed/Not Completed (20 points)
- **Post-tutoring Session Reflections on Discussion Board**—grade as Completed/Not Completed (7 post-tutoring responses @ 2 points each=14 points)
- **'What I learned' Reflection**—grade by rubric (21 points)

3) Grammar Jamboree! Yihaw (40 points)

AKA Conceptualizing and Explaining Grammar Assignment

How do you construct visual explanations of grammar and then explain that grammar concept to a student? You'll have an opportunity to create a visual explanation of a grammar point of your choosing and then explain it in a student-friendly manner to your classmates in a round robin bonanza of fun. You can do this assignment with a partner if you'd like. Specific details and instructions can be found on Canvas.

4) Grammar Lesson Plan (10 points)

You will create a lesson plan (separate from your partner if you did this with a partner) to accompany your Grammar Jamboree content.

5) Theory/Practice Connection (30)

You will critique five articles on a topic of interest to you and then detail how this topic shapes your practice. Details will be given

Points add up to 200 and divided by 2 to get grade. See below for UF grading.

What you need to do in this course to develop as a student, teacher, person

Complete the Readings

What you read will provide a foundation for what we will do in class activities. This may be new info for some of you, so you may need to spend more time with the readings. Come with questions! Having a strong understanding of the grammar concepts will not only help you do well in the course activities but will make you that annoying friend who corrects people when they use 'who' instead of 'whom'.

Watch the Lectures/Videos

There are some course lectures online which are designed to explain the concepts introduced in the readings by presenting the content in a slightly different manner. They

also provide exemplars for how to construct visual representations/explanations of grammar..

Attend and Actively Participate in Class AKA Be prepared to think together!

I always say “everything I do has an instructional reason”—nothing is a throwaway or empty activity in my classes. Come to class **on time, prepared, and ready to think together**. Just a warning—students are sometimes surprised that I ask them to explain why they think something and don’t just say “good answer”. This is part of my way of developing what I call your ‘teacherly thinking’. I come to the classroom thinking that every single one of you is capable AND capable of doing more. This will feel intimidating at first, especially because teaching is not a “natural” act, something you are born knowing how to do. You will surprise yourself as you develop your abilities to articulate your ideas about teaching and analyze teaching materials.

We are a learning community so be respectful (no texting unless family emergency) or web surfing. I know some of you like to take notes on your computer. That’s okay, but please be aware of the value of writing notes out! <https://www.ascd.org/el/articles/the-magic-of-writing-stuff-down>

Class attendance is essential for your success in this course. I did not have an attendance policy for years, but an experience with one student has unfortunately changed this for you and me. You are allowed to take three unexcused absences. Each unexcused absence beyond that may lower your final course grade by one level (e.g. from A to A-). Excused absences should be consistent with [UF Attendance Policies](#). For an absence to be excused, you should provide documentation, such as a doctor’s note, within **two weeks after the absence**. Sometimes students fall into an *absence hole* and rather than reaching out to me, they dig deeper. This breaks my heart! If you keep in communication with me, there should be no problems. If you fall ill or have an emergency, please let me know. **I am extremely responsive if you are having some difficulties.**

I appreciate that some people do not like to participate in whole class discussions. In fact, I will ask you about this on the first day. We do, however, engage in numerous partner and small group activities in class which support your learning; participating in these activities will be central to your growth. You will thus be expected to participate in these pair/small group activities. Try to learn your classmates’ names, especially the people around you.

IF YOU ARE DIAGNOSED WITH COVID or are ill, PLEASE DO NOT COME TO CLASS AND INFORM ME ASAP. YOU CAN WATCH THE VOICETHREADS AND I WILL GIVE YOU THE WORK THAT YOU HAVE MISSED IN THE CLASS ACTIVITIES IF YOU WANT. I AM MORE THAN HAPPY TO MEET WITH YOU ON ZOOM TO CLARIFY.

Submit Work on Time

Deadlines are part of life, and the deadlines in this course were set to help build your knowledge and abilities throughout the semester to help you be successful in the class

assignments. Late assignments will be penalized (10% of the grade deducted for each day it is late). BUT I will give you extensions without penalty if you let me know **ahead of time** (for example, sickness, religious holidays, emergencies). If you tell me after the fact, your work will be penalized.

Check Canvas Regularly

Canvas (<https://elearning.ufl.edu/>) will be our main online platform for the course. It will be the main way that I communicate with you outside of class. You are welcome to contact me via Canvas or my UF email (pgolombek@ufl.edu). I send out Announcements and reminders about upcoming assignments fairly regularly, so make sure to set up your Canvas notifications.

Communicate

I am genuinely eager to get to know you as people/students. Your success matters to me. If you are unsure about expectations, need feedback, have to miss class, etc. PLEASE reach out to me. You can email me, Canvas message me, see me during office hours (zoom or in person), touch base after class. I tend to have a rapid response time when students reach out. I will ask the class for some feedback at times to get a sense of how things are going.

According to Florida House Bill 233, students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. Please see Canvas for details about when you are allowed to record the class.

Be a good citizen of our learning community

Do your own work unless working with a partner as specified in certain activities. Follow the University of Florida, you are bound by The Honor Code [Student Responsibilities < University of Florida \(ufl.edu\)](#). Of course not cheating is part of the Honor Code, but it also specifies a number of behaviors that are in violation of this code and the possible sanctions. I take this part seriously in my work: "Only in an atmosphere of equality and respect can all members of the university community grow."

Use of Artificial Intelligence (such as ChatGPT) to write any material submitted for this course is prohibited. Because this course is about YOU developing YOUR ability to express certain grammatical concepts in a teacherly way, I see ChatGPT as interfering with your ability to explain concepts in ways that demonstrate your understanding AND in a way that your students will understand.

Take Care of Yourself

We are living in challenging times. If you feel overly challenged, please contact the Counseling and Wellness Center <https://counseling.ufl.edu/> 352-392-1575. If you are having difficulty setting something up at the CWC or see a friend in distress, please contact

umatter@ufl.edu or (352) 392-1575 so that a team member can reach out to the student. Don't be surprised if I reach out to see how I could support you.

Request Accommodations if Needed

Any student with differing abilities/needs who is requesting accommodations should first register with the Disability Resource Center (<https://disability.ufl.edu/>). Once registered, students will receive an accommodation letter, which must be presented to me as the instructor when requesting accommodation. Please do this as early as possible in the semester. If you need any help, let me know.

Request a Letter of Recommendation

Many students ask me to write letters of recommendation each year for teaching programs, Fulbright, graduate school, and jobs. I take this seriously. This means that how you engage with the material in this class and with me has an impact on whether or not I feel as though I can write a solid letter (participation, attendance, and performance all matter). Please note that you are required to fill out a Release of Consent form by the university: [Release for Letter of Recommendation \(Links to an external site.\)](#)

	Assignment	GP #5 Choose ONE of the following and be prepared to share with your mates on the 28th! Be sure to identify who your target students are: age, proficiency level,	

		<p>where you're teaching. Try to imagine what students would do and what language they might actually produce! I've given some ideas, but number 4 says use your imagination!</p> <p>1. Maps are a great way for students to use spatial prepositions. What kind of map would you use with your students (something from a book, something you created) and what kind of activity could you have students do to use prepositions with the map? What would your prompt to them sound like? Can you imagine what you would like them to "produce" in terms of prepositions?</p> <p>2. Describing habits/schedules/routines could be a way to bring together prepositions and simple present. Could you imagine such an activity? What would the prompts to them sound like? Can you imagine what you would like them to "produce" in terms of prepositions?</p> <p>3. How could you use the at, on, in triangle from the voicethread with your students for either time or place or both? What would the prompts to them sound like? Can you imagine what you would like them to "produce" in terms of prepositions?</p> <p>4. Do you have an idea that doesn't overlap with any of the three above? Again, explain. What would the prompts to them sound like? Can you imagine what you would like them to "produce" in terms of prepositions?</p>

Some ideas for topics that can be engaging for students include the following: ordering of adjectives; genetives (whether some thing gets an 's or 'of'); difference between some and any; passive and active voice.
